

The Aspire Premium Homecare Bed combines a sleek, stylish design with superior comfort and functionality.

With 5 profiling functions to suit all comfort, positioning and care needs, the Premium Homecare Bed has received personal design attention allowing it to fit subtly into any home environment. Head & foot boards with adjustable side rails in a beech timber finish form a traditional bed surround when lowered to compliment a homely interior and care facilities alike.

The robust bed can also be easily assembled and dismantled for ease of transport and storage when not in use.
