## EASYTRACK FS

FEATURING THE V3  
PORTABLE LIFT

**A true portable lift and transfer system for the home that's easy to transport and quick to assemble.**

The *Easytrack FS* is a freestanding, versatile solution for all types of point-to-point transfers - wheelchair to bed, bed to chair, even in the bathroom, anywhere there is a lift and transfer need.

The *Easytrack FS* has a safe working load of 440 lbs (200 kg). That's exceptional for a portable product making it suitable for use in most any home.

This equipment was designed to allow those with a mobility impairment to continue to live at home and enjoy many of their normal activities.

...with people in mind

# EASY ASSEMBLY

The light-weight aluminium bases feature adjustable levels to ensure that the unit remains perfectly stable and secure when assembled.

The posts have been designed to be self-aligning. Components only fit together one way to prevent any assembly errors and ensure the safety of the system.

The rail can be extended up to a width of 115" (3 meters) which is more than enough to span a king size bed.

The telescoping posts include height indicators that allow you to adjust both posts for a perfectly level top rail. A special one-way locking mechanism ensures that the post cannot retract on its own.

- For most transfers
- Head-rest incorporated
- Suitable for most individuals
- Excellent for bathing

- For general transfers
- Perfectly suited for stocky or bariatric individuals with strong hips or large thighs

- Ideal for transferring to the toilet
- Permits easy access to change and dress individuals
