Molift Quick Raiser 2

Sit-to-stand hoist with electrically adjustable leg base

Molift Quick Raiser 2 with electrically adjustable leg base is compact, stable and easy to manoeuvre. The unique wheel position and near perfect weight distribution of the base provides a good turning radius and easy manoeuvrability even in narrow spaces.

The inclined straight column imitates the natural pattern of movement and fulfils the hoisting needs of users with some degree of weight bearing capacity. Molift Quick Raiser 2 has a safe working load of 160 kg.

The low base, 10 cm, fits under most beds and chairs while the electrically adjustable legs enables accessibility almost everywhere.

Electrically adjustable legs

A perfect alternative when the hoist is used together with chairs with no accessibility underneath, such as electric wheelchairs and recliners.

Adjustable knee pads

The knee pads are height adjustable and can be turned around for better fitting and to give alternative support for the legs.

Battery indicator

All Molift hoists have an integrated battery indicator that provides audio and visual notification.

Unique wheel positioning

The lightweight construction combined with the unique wheel positioning, provides exceptional maneuverability.

Molift Quick Raiser 2

Item no.

U-shape arm

M04400

Chassis width

610 mm

External width of wheelbase

1200 mm
